

Who we are

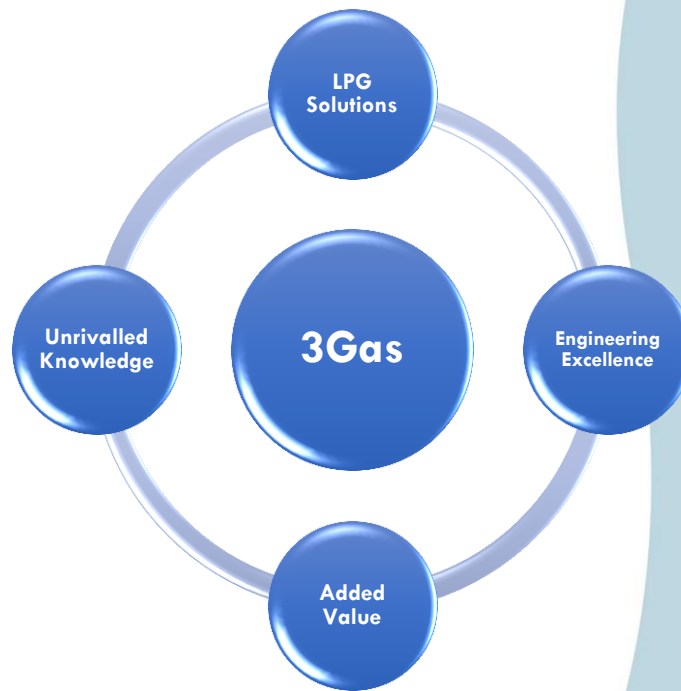

TOTALGAZ

From humble beginnings, we have a vision and an attitude that will continue to see us grow. In an industry that is dominated by major players, our aim is to provide a breath of fresh air to our clients and offer a valid alternative. With a commitment and drive that we believe to be unsurpassed in the industry, our aim is to continually outshine the opposition with service offering that is not only first rate, but also innovative and forward thinking. This attitude has seen us take a forward looking approach to the alternative energy market and we can now offer a complete approach to energy services in today's carbon aware society.

Ab initio, **3Gas** trades, markets and provides LPG and other petroleum product solutions. The type and quality of services that we offer are comparable with anyone in the market place. Our expert team also provides innovative solutions for gas engineering – from planning the most efficient systems to developing cutting edge technology to match our client's ambitions; we can see the whole project through. We currently pursue our growth strategy, by acquiring from major industry players producing LPG and allied products that meet **3Gas** production and risk criteria.

3Gas is a privately owned for profit petroleum products marketing business engaged in the provision of universal fuel solutions and services to corporate, commercial, individual customers and government. Our services are concentrated primarily in the mid to downstream sectors focusing on petroleum products marketing and solutions. We also have fully integrated LPG operations in a broad spectrum of the LPG value-chain.

3Gas, its associated companies and partners provides such services and business activities which include Bulk LPG retail, Bulk petroleum storage installation, Petroleum products distribution and prepaid and contract Services to our present and future clients.

We have a strong and consistent earnings record, as well as solid capital and liquidity positions. In addition our operations are highly

automated and our professionalism combined with conservative posture has enabled us record significant success since inception. We also have a strong PR culture, which enables us to cross sell products.

3Gas has a broad base of information and services regarding sales and purchase of LPG and allied products, critical resources, transportation, management, business opportunities, infrastructure projects and general services. **3Gas** and through its affiliates, partners and/or subsidiaries, provide a diverse range of supporting specialized products and services for the LPG industry.

3Gas strives to contribute to the well-being of the people and nations wherever it

operates by developing and adding value to LPG resources in a manner that carefully balances commercial, environmental and social considerations.

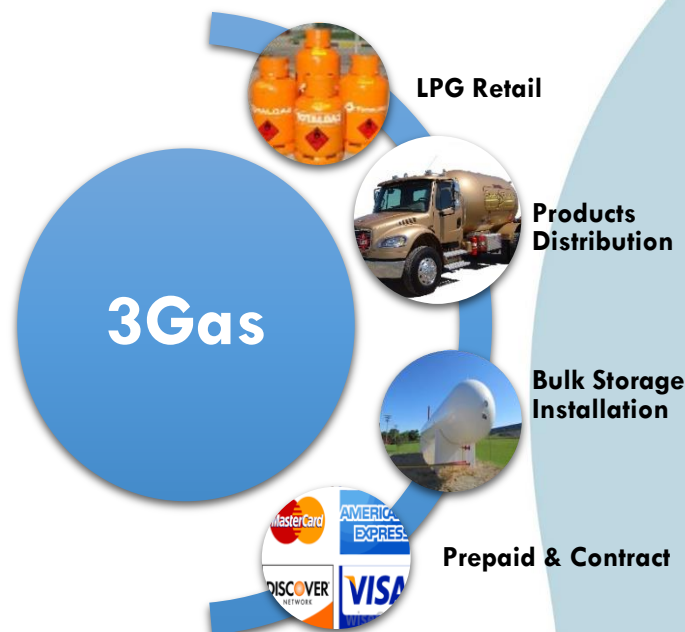

Services Description

3Gas is an LPG marketing company with its head office in Port Harcourt, Nigeria, operates in over 3 countries via JV partnership or affiliation.

Product Availability & Supply

3Gas has relationship with a Major International Oil Company (IOC) nationwide and can source and supply products at the most competitive prices directly to the client.

What we do

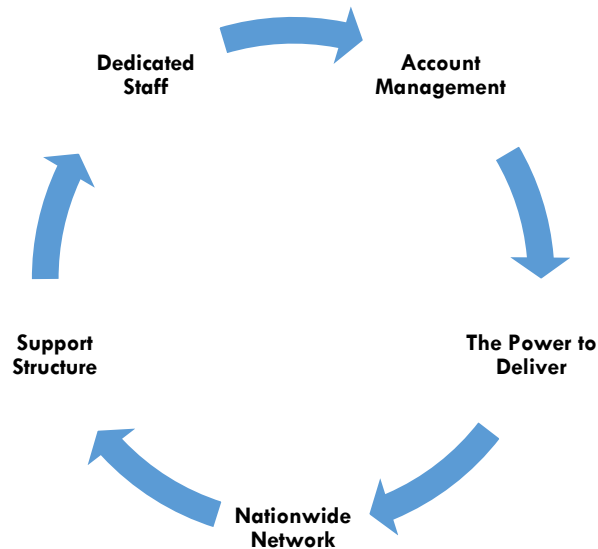

We are a retailer providing petroleum products solutions; we sell, distribute and deliver LPG and allied products across the country. **3Gas** has also operational subsidiaries, joint venture (JV) partners and affiliates in Africa, Asia and Europe. This leading position is associated with our successes in the petroleum marketing business.

In general we are a petroleum company with specialty – we deliver more than just products; the type and quality of services that we offer are comparable to anyone in the market. Thus,

we act as independent engineers and our prime responsibility is to plan the most efficient systems using cutting edge technology to match our clients' ambitions. While we design, supply, implement, support and fine-tune the sales and purchase process on mutually accepted and beneficial terms. We can also research and be entrusted with the responsibility of researching the markets to provide appropriate recommendations and furnish considerable market information regarding prices, products and market conditions

How we work

As part of the delivery process, we explore the world of petroleum interests to discover the right blend that accurately reflects or fits our clients' home or business'.

Safety Culture

Protection of the environment in which we live and operate is part of **3Gas'** values and we consider it sound business practice. Care for the environment is one of our key responsibilities and an important part of the way in which we do business.

When used correctly LPG is a completely safe product but it is a combustible fuel. As such, we have to recognize the potential dangers it can present, both to our customers and to the wider public alike.

That is why safety is our top priority and can be seen at the heart of everything we do. We have a rigorous process of Safety management, in line with Accident Hazards Safety Reports, that adds weight to a genuine culture of safety that exists within the business. We are proud of our safety record, but never let ourselves become complacent, investing in regular training and setting new targets of safety excellence going forward.

We look forward to welcoming you as a **3Gas** customer.

We are the new Spirit of African Energy...

This is our world... This is your life... Feel the power of 3.
